## ABOUT THIS HOME

Our Greenside floor plan features a modern, open-concept layout with 3 bedrooms, 2.5 bathrooms, 1,924 finished square feet, and 2,774 total square feet. A large family room leads into the open kitchen and dining room. Here, you and your family will spend most of your time lounging, eating, and entertaining guests. A closet in the entryway is perfect for tucking away coats, umbrellas, shoes, and more. Nearby is also a stairwell leading upstairs. In the kitchen, there's a roomy pantry to provide plenty of space for your food necessities. A hallway off of the kitchen leads to both a convenient powder bath and mudroom by the garage. Upstairs you'll find a laundry room located next to the bedrooms. Its convenient location makes it so you can return your clean clothes to your bedrooms in no time. The two bedrooms feature walk-in closets and are down the hall from the bathroom. Last but not least, your spacious owner's suite is at the end of the hall with a large owner's bathroom. Relax in your spacious bathroom with its walk-in closet, walk-in shower, and water closet. A finished basement is optional for those who want extra room. The expansive recreation room can turn it into anything from a game room to a movie theater. Also included are a bedroom, bathroom, mechanical room, and storage space.
