ABOUT THIS HOME

Modern, stylish, and sleek, our Sandcrest floor plan makes the perfect home. Designed with functionality in mind, this floor plan includes 3 bedrooms, 2.5 bathrooms, 2,136 finished square feet, and 3,181 total square feet. Right off the entrance is a flexible living space you can use as a living room, office space, or more. The open-concept design downstairs welcomes you into a kitchen, dining room, and two-story family room. This space is great for spending quality time with your family, cooking, eating dinner, lounging, and having game nights. For ultimate convenience, a large pantry for your food necessities, a mudroom, and a powder bath are all near the kitchen. Upstairs, your open railing shows off a gorgeous view of the family room below. Take a break from all the hustle by relaxing in your owner's suite with the large walk-in closet, water closet, walk-in shower, and large vanity. The laundry room on the upper floor makes it easy to put away clean clothes. Also included upstairs are two bedrooms and a bathroom. For more living space, you have the option to finish your basement with a recreation room, bedroom, bathroom, closet, and storage space. Transform your large recreation room into a hobby space, lounging area, or more!
